COVER LETTER

Dear Ladies and Gentlemen:

I am interested in contributing my broad range of international technical and business expertise to help your company and your clients to keep competitive and efficient concerning the global challenges of digitalization and worldwide collaboration needs in design, engineering, manufacturing and after sales.

As a President & CEO, and international Consulting, I have developed persuasive skills in helping clients in achieving their goals.

I have also gained extensive experience in international technical and business consulting.

I am convinced that my experience to identify customer pains, challenges and to provide the most efficient solution is creating sustainable customer success.

Sincerely,

Heiko Oldendorf

President & CEO, international Consultant
